- **Passport (original);**
- **1 photo of 3 x 4 cm size (for issuing an individual medical card);**

Fluorography certificate is issued based on the results of the fluorographic method of X-ray diagnostics of lungs and chest organs, in which the X-ray image of an object is transferred from a fluorescent screen to a relatively small film (1 projection).
- **Insurance policy is mandatory for all foreign citizens staying on the territory of the Russian Federation (Article 27 of the Federal Law of August 15, 1996 № 114-FZ "On the procedure for leaving the Russian Federation and entering the Russian Federation").** A standard voluntary medical insurance policy (VMI) should include a minimum set of medical services. The insured person should receive not only outpatient and inpatient treatment – the list should include medical transportation, emergency hospitalization and repatriation. Ordinary travel insurance is not suitable. Before purchasing a VMI policy in your home country, we advise you to write to the academic exchange coordinator in NWIM RANEPa for its approval. After receiving approval – please send the finished policy by email. If you enter without a VMI policy, please contact a specialist of the Visa and Migration Support Office (hereafter – VMSO) for advice on obtaining one. Currently the VMI costs 6100 RUB. For this purpose, it is necessary to fill out the table in advance. Then, the academic exchange coordinator in NWIM RANEPa sends to the international student a VMI and an invoice for payment, who must independently pay for it by himself/herself within working 3 days and send the payment receipt to the academic exchange coordinator in NWIM RANEPa and the Head of the VMSO.
